Approval of the Dean

1. Program Vision

The clear vision that we envision in the strategic academic program is to make the faculties of Islamic sciences, and in particular the Department of Jurisprudence and its Principles, a beacon of knowledge and a factor of guidance in the social community, consolidating strong and correct foundations for belief in God and His monotheism, and demonstrating moral methods in Islamic law based on its constants, general organization, and law includes transactions here between people, Al-Hur, which is the body of spring and sale, rights and duties, money and honour, the preservation of souls, the stability of the mother, the stability of part of the Sharia, and the controls of what comes after it. The college of Islamic sciences of their knowledge are implemented according to their mechanical specialization.

2. Program Mission

The colleges of Islamic sciences, including the Department of Jurisprudence and its Principles, work to create a scientific environment that is compatible with comprehensive quality standards in the fields of higher education and scientific research, and work to qualify distinguished specialists in the field of Sharia, scientifically and intellectually, which allows them the ability to participate effectively in community service and outstanding performance in the theoretical and scientific Sharia fields. The Holy Qur'an, the noble Sunnah of the Prophet, the biography of the Prophet Muhammad, may God bless him and grant him peace, and his tolerant law are a basis for cognitive expansion and an indicator of sound cognitive behavior, in addition to general human moral principles.

3. Program Objectives

- Preserving jurisprudence and its principles.
- Preparing and presenting specialized scientific competencies that meet the needs of the contemporary Islamic community at home and abroad in the fields of teaching jurisprudence and its principles, imamate, rhetoric, advocacy, and realizing the scientific heritage.
- Forming an Islamic personality that belongs to its religion, country, and nation and is distinguished by a deep understanding of Islam
- Striving to create an atmosphere characterized by moderation and moderation, combining authenticity and modernity, while understanding the objectives of Islamic law.
- Spreading Islamic and national culture and the spirit of tolerance, love and societal peace.
- Teaching students the mechanism of reviewing sources in general, and important Islamic sources in particular.
- Improving the reality of curricula.

	Fik415	Graduation research	١	
	Fik301	memorizing the holly Quran	١	
	Fik302	Professional ethics	٢	
			٤٤	

8. Expected learning outcomes of the program

Knowledge

Learning outcomes 1	<ul style="list-style-type: none">– Developing students’ talents and abilities in jurisprudence and its principles and keeping pace with the development of jurisprudence, its principles and contemporary issues (jurisprudence of calamities).– Adopting systematic thinking methods that are appropriate to the form and content of the knowledge available through the topics of jurisprudence and its principles that he studies– That the student be able to adopt scientific thinking methods in confronting problems
---------------------	--

Skills

Learning outcomes 2	<ul style="list-style-type: none">– Scientific research skill– Different types of thinking skills (critical, creative, analytical)– The ability to understand the basics of jurisprudence and its principles and apply them practically– Dealing with contemporary legal issues in addition to finding appropriate solutions to economic problems from an Islamic perspective.– Building the jurisprudential and fundamental skills of the student in the Department of Jurisprudence and Principles.
---------------------	---

Ethics

Learning outcomes 4	Developing students’ capabilities to share basic ideas related to the subject.
---------------------	--

9. Teaching and Learning Strategies

- Explaining the scientific material to students in detail.
- Participation of students in understanding and discussing legal issues.
- Discussion and dialogue about vocabulary related to the topic.

10. Evaluation methods

Through oral and written examinations.

11. Faculty

Faculty Members

Muhammad Shanyar Badawi	Alhadith					Lecturer
Muhammad Mohsen Radhi	Islamic thought, beliefs and religions					Lecturer
Abdullah Hanafesh	The science of speech					Lecturer
Nashwan Zidane	Teaching methods					Lecturer
Muhammad Musdaf Dhir	Islamic thought, beliefs and religions					Lecturer
Mahmoud Aqeel	Quran sciences					Lecturer

Professional Development

Mentoring new faculty members

The scientific department has a special complementary approach to the faculty guidance strategy through the vision statement, mission, and goals of the college. The department does not follow up on personnel affairs properly for the executive staff and is able to self-control.

Professional development of faculty members

One of the axioms of the scientific department in the professional development of college members is to set a schedule specifying training courses and workshops in addition to seminars, all of which would increase the professional ability and quality of the college members.

12. Acceptance Criterion

Through the private admission and central admission channels.

13. The most important sources of information about the program

- Market needs.
- the Guidance of the governorate.
- Scientific studies.

14. Program Development Plan

Teaching staff

- Contributing to developing the competence of teaching staff in the department in a way that is compatible with the development of the humanities
- Contributing to providing universities, colleges and various institutions with academically qualified graduates who hold master's and doctorate degrees.

Educated people

- Paying attention to providing learning opportunities and acquired experiences that develop students' capabilities and orientations.
- Using new concepts in the field of al-sharia sciences and using electronic devices to present information and issues when necessary.

المرحلة الأولى صباحي كورس اول

Course Description

1. Course Name:					
Computer					
2. Course Code:					
3. Semester / Year:					
The first semester / first stage / morning and evening studies					
4. Description Preparation Date:					
10/9/2022					
5. Available Attendance Forms:					
Theoretical lecture - practical application in the computer laboratory					
6. Number of Credit Hours (Total) / Number of Units (Total)					
30					
7. Course administrator's name (mention all, if more than one name)					
Name: nadia mohammed fahad Email: nadia.fahad@uoanbar.edu.iq					
8. Course Objectives					
Course Objectives		For the student to learn about the basics of the development and invention of the computer, its phases and generations, and to become familiar with its basic physical and software components, input and output devices, how to deal with them, and the internal parts.			
9. Teaching and Learning Strategies					
Strategy		1- Method of presentation, interrogation and discussion 2- Use some relevant examples of explanation 3- Requiring students and teaching them to write reports and research 4- An application for each topic in the laboratory			
10. Course Structure					
Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	2		Computer fundamer and development	Presentation, discussion,	Written examinations

2			Computer phases	Andpractical	With the laborator
3			Computer generation	application	
4			Computer features		
5			Electronic computer		
6			Areas of computer use		
7			Types of computers and		
8			their classification		
9			Computer uses		
10			Computer's components		
11			Input and output		
12			devices		
13			Computer box and		
14			system unit		
15			CPU		
			Types of memory - primary		
			- bios		
			Software entity		
			programming languages		

11. Course Evaluation

Distribution of the grade from 100 according to the tasks assigned to the student: semester from - 30, daily exam from 5 - oral from 5 - final from 60

12. Learning and Teaching Resources

Required textbooks (curricular books, if any)	
Main references (source)	Computer basics and office applications Part One – Semester One and Semester Two
Recommended books and references (scientific journals, reports...)	
Electronic references, websites.	

Course Description

1. Course Name:
Grammar Science
2. Course Code:
Selected grammatical topics from the chapters on Arabic grammar
3. Semester / Year:
2022/2023 Course one
4. Description Preparation Date:
10/9/2022
5. Available Attendance Forms:
Basic
6. Number of Credit Hours (Total) / Number of Units (Total)

(6) hours per week

7. Course administrator's name (mention all, if more than one name)

Name: Mohmmmed Ibrahim shallal

Email: moh.shallal@uoanbar.edu.iq

8. Course Objectives

Course Objectives

- Enable the student to read correctly
- To acquire the ability to use the language correctly in communication with others
- Stay away from melody and mistakes

9. Teaching and Learning Strategies

Strategy

Identify the goals of grammar
Learn about grammar topics
Learn about creating grammatical structures

10. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	3	the course included	Speech and what it consists of	lecture Student participation	Participation in lecture
2	3	=	Name tags	lecture Student participation	Participation in lecture
3	3	=	Verb signs	lecture Student participation	Pop test
4	3	=	The inflected and constructed form of nouns	standard Student participation	Participation in lecture
5	3	=	The inflected and constructed form of verbs	standard Student participation	Pop test
6	3	=	Parsing signs	lecture Student participation	Participation in lecture
7	3	=	The six names	Written test
8	3	=	Double	lecture Student participation	Pop test

9	3	=	Sound masculine plural	lecture Student participation	Participa in lecture
10	3	=	Sound feminine plural	lecture Student participation	Pop test
11	3	=	What does not go away	lecture Student participation	Participa in lecture
12	3	=	The five examples	lecture Student participation	Participa in lecture
13	3	=	Parsing the defective nouns	-----	Written test
14	3	=	Parsing the defective verbs	lecture Student participation	Participa in lecture
15	3	=	Indefiniteness and knowledge	lecture Student participation	Pop test

11. Course Evaluation

Score distribution out of 100

Daily preparation and daily and monthly exams: 40

And final exams: 60

12. Learning and Teaching Resources

Required textbooks (curricular books, if any)	Facilitating and completing explanation of Ibn Aqeel
Main references (source)	Explanation of Ibn Aqeel on Alfiyy Ibn Malik
Recommended books and references (scientific journals, reports...)	The clearest path to Alfiyyah Ibn Malik Al-Ashmouni's explanation of Alfiyy Ibn Malik, comprehensive grammar collector of Arabic lesson

Course Description

1. Course Name:
Logic
2. Course Code:
Jurisprudence and its principles
3. Semester / Year: 2022–2023
Second semester /
4. Description Preparation Date:
10/9/2022
5. Available Attendance Forms:
Bachelor's
6. Number of Credit Hours (Total) / Number of Units (Total)
Thirty (30) two hours per week
7. Course administrator's name (mention all, if more than one name)
Name: Dhaher Faisal Badawy Email Email: dhair.faysal@uoanbar.edu.iq

8. Course Objectives

Objectives of the study subject	The course aims to enable students to learn about machine science, the most important of which is logic, which protects the mind from error in thinking, and to enable them to work in this science.
---------------------------------	--

9. Teaching and Learning Strategies

Strategy	<ul style="list-style-type: none"> •Introducing the student to the importance of logic •That the student knows how to occupy his mind through correct thinking that leads to what is desired . •That the student is aware of the importance of knowing this science; Because it is the key to all sciences by deciphering terms
----------	--

10. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	2	What the course included	Definition of logic in language and terminology	lecture	Participate in the lecture
2	2	=	Ruling on engaging in logic	Student participation	Participate in the lecture
3	2	=	The benefit of logic	lecture	Pop test
4	2	=	Definition of incident science	Student participation	Participate in the lecture
5	2	=	Departments of incident science	lecture	Pop test
6	2	=	Explaining the meaning of perception and belief	Student participation	Participate in the lecture
7	2	=	a test	standard	Written test
8	2	=	Explaining the meaning of the discussion of words	Student participation	Pop test
9	2	=	Definition of significance	standard	Participate in the lecture
10	2	=	Semantic sections	Student participation	Pop test
11	2	=	Definition of verbal verbal connotat	lecture	Participate in the lecture
12	2	=	Sections of verbal semantics	Student participation	Participate in the lecture
13	2	=	a test	-----	Written test
14	2	=	Statement of the name and its divisi	lecture	Participate in the lecture
15	2	=	Identifiers and their conditions	Student participation	Pop test

11. Course Evaluation

Distributing the score out if 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports,...etc.

12. Learning and Teaching Resources

Lectures on logic / Professor Muhammad Salman Daoud	Required prescribed books (Methodology, if any)
<ul style="list-style-type: none"> •Abstract of logic, Dr. Abdul Hadi Al-Fadhli . •Logic, Sheikh Muhammad Redha Al-Muzaffar •Logic science: Dr. Mohamed Ramadan •The standard of science in the art of logic: by Abu Ha Al-Ghazali 	Main references (sources)

Course Description

1. Course Name:
Theology (prophecies and audiology)
2. Course Code:
Theology (prophecies and audiology)
3. Semester / Year:

Second Course (2022–2023) second stage

4. Description Preparation Date:

10/9/2022

5. Available Attendance Forms:

In-person education

6. Number of Credit Hours (Total) / Number of Units (Total)

30 hours

7. Course administrator's name (mention all, if more than one name)

Name: Dr. Abdulla Hanfash Hamd

Email: abdulla.hanfash@uoanbar.edu.iq

8. Course Objectives

Course Objectives

- For the student to become familiar with the Islamic faith.
- The student understands the importance of faith in establishing security and peaceful coexistence.
- That the student recognizes the difference between correct beliefs and corrupt beliefs.
- That the student understands his duties through the principles of that doctrine
- The student should be able to understand the Islamic faith correctly, away from excess and negligence
- That the student learns the meaning of prophecy and the message, the difference between prophets and messengers, the characteristics of prophets and messengers, and everything related to it.
- For the student to learn the meaning of audiology, its sections, and the characteristics of each section.

9. Teaching and Learning Strategies

Strategy

- All types of teaching methods: lecture, inductive, standard.
- Slide show (Power Point)
- Questions.
- Encouraging the student to make interventions
- Assignments and student participation.
- Mind maps.

10. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1.	2	What the course included	Sending messengers, selection of prophecy, humanity of messengers	lecture Student participation	Participate in the lecture
2.	2	What the course included	Infallibility, its definition and evidence	lecture Student participation	Participate in the lecture
3.	2	What the course included	Revelation: its definition, types, qualities and doubts about it	Inductive Student participation	quiz
4.	2	What the course included	The miracle: its definition, conditions, and related topics	Inductive Student participation	Participate in the lecture

5.	2	What the course included	The Messenger's miracles and evidence of the truth of his prophecy	Standard Student participation	quiz
6.	2	What the course included	The generality of the message, the seal of prophecy, and our duty towards the Messenger	lecture Student participation	Participate in the lecture
7.	2	What the course included	Exam	lecture Student participation	quiz
8.	2	What the course included	The Last Day: its meaning, name, evidence, and the ruling on believing in it	lecture Student participation	quiz
9.	2	What the course included	Death is the first stage of the afterlife, and the initiative to repent	lecture Student participation	Participate in the lecture
10.	2	What the course included	The isthmus, and the question of the grave, its torment and its bliss	lecture Student participation	quiz
11.	2	What the course included	The afterlife and its signs	lecture Student participation	Participate in the lecture
12.	2	What the course included	Resurrection and publication	lecture Student participation	Participate in the lecture
13.	2	What the course included	heaven and hell	lecture Student participation	quiz
14.	2	What the course included	The intercession of the Prophet, may God bless him and grant him peace	lecture Student participation	Participate in the lecture
15.	2	What the course included	Exam	lecture Student participation	quiz

11. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports,...etc.

Quest: 40 degrees and includes:

First month exam: 15, daily: 5 (preparation, daily tests, and assignments).

Second month exam: 15, daily: 5 (preparation, daily tests, and assignments).

Final exam: 60 marks.

16. Learning and Teaching Resources

Required textbooks (curricular books, if any)	The Islamic faith and its doctrines / Professor Dr. Qahtan Abdul Rahman Al-Douri
Main references (source)	Islamic Faith / Saeed Al-Khan
Recommended books and references (scientific journals, reports...)	Economy in Belief by Al-Ghazali

	Name: Kharie shaker Email: Kharie.shaker@uoanbar.edu.iq
352.	Course Objectives
Course Objectives :	<ul style="list-style-type: none"> • Identifying the Sharia provisions of the jurisprudence of crimes and punishments explaining the specific evidence regarding them from multiple sources of legislation • Developing the ability to derive rulings on emerging issues and learn about doctrines of jurists • To open the minds of students, develop their abilities, and develop their intellectual abilities in discussing, responding to, and objecting to false or false evidence, arriving at the approved truth.
353.	Teaching and Learning Strategies
Strategy	<ul style="list-style-type: none"> • Identifying the Sharia provisions of the jurisprudence crimes and punishments and explaining the specific evidence regarding them from multiple sources of legislation. • Developing the ability to derive rulings on emerging issues

	<p>and learn about the doctrines of jurists</p> <ul style="list-style-type: none"> • To open the minds of students, develop their abilities, and develop their intellectual abilities in discussing, responding and objecting to false or false evidence, and arriving at the approved truth.
--	--

Course Structure: A- Knowledge and understanding. Developing the student's ideas to become familiar with the virtue of Sharia science in general and jurisprudence in particular by studying its issues and finding judgment by deduction regarding current issues and emerging calamities.

B- Subject-specific skills: putting the student on the right path to learn to present jurisprudential issues and discuss them in a scientific discussion far from extremism and fanaticism, so that he understands that the goal is to reach knowledge of the ruling that God Almighty wanted and was pleased with for His servants.

Teaching and learning methods through the actual participation of students by asking questions, listening to their answers, and correcting the wrong ones.
