Academic Program and Curriculum Description GuideAcademic Program and Curriculum Description Guide

AD Y.Yo-Y.Y£

#### :Introduction

The educational program is a coordinated and organized package of courses that include procedures and experiences organized in the form of study modules, the main purpose of which is to build and refine the skills of graduates, which qualifies them to meet the requirements of the labor market. It is reviewed and evaluated annually through internal or external audit procedures and programs such as the .external examiner program

The academic program description provides a brief summary of the main features of the program and its courses, indicating the skills that students are working to acquire based on the objectives of the academic program. The importance of this description is evident because it represents the cornerstone in obtaining program accreditation and is written by teaching staff under the supervision of scientific .committees in the scientific departments

This guide, in its second version, includes a description of the academic program after updating the vocabulary and paragraphs of the previous guide in light of the developments and developments of the educational system in Iraq, which included a description of the academic program in its traditional form (annual, semester) system, in addition to adopting the description of the academic program circulated under the letter of the Department of Studies TM3/2906 dated 5/3/2023 regarding .programs that adopt the Bologna path as a basis for their work

In this field, we cannot but emphasize the importance of writing a description of academic programs and courses to ensure the smooth running of the educational .process

## :Concepts and Terminology

Academic Program Description: The academic program description provides a brief summary of its vision, mission and objectives, including an accurate description of .the targeted learning outcomes according to specific learning strategies

Course Description: Provides a brief summary of the most important characteristics of the course and the learning outcomes expected from the student to achieve, demonstrating whether he has made the most of the available learning .opportunities. It is derived from the program description

Program Vision: An ambitious picture of the future of the academic program to be .an advanced, inspiring, motivating, realistic and applicable program

Program Mission: It briefly explains the goals and activities necessary to achieve .them, and also identifies the paths and directions of the program's development Program Objectives: These are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and .observable

Curriculum Structure: All courses / subjects included in the academic program according to the approved learning system (semester, annual, Bologna track) whether they are required (ministry, university, college and scientific department) with the number of academic units

Learning Outcomes: A consistent set of knowledge, skills and values acquired by the student after successfully completing the academic program. The learning outcomes for each course must be specified in a way that achieves the program objectives. Teaching and learning strategies: These are the strategies used by the faculty member to develop the student's teaching and learning. They are plans that are followed to achieve the learning objectives. That is, they describe all classroom .and extracurricular activities to achieve the learning outcomes of the program

Required textbooks ( curricular books, if any) : Explanation of Ibn Aqeel

Main references (source): Explain enough

Recommended books and references (scientific journals, reports...): Grammar books

### 1. Course Name:

Computers - Microsoft Office Word 2010

### 2. Course Code:

Computer basics and office applications book, part two, number of pages (192)

3. Semester / Year:

2024-2025

4. Description Preparation Date:

1/10/2024

5. Available Attendance Forms:

Second stage students

6. Number of Credit Hours (Total) / Number of Units (Total)

(2) hours per week

7. Course administrator's name (mention all, if more than one name)

Name: Abd Abrahim Mosslah Email: isl.abide@uoanbar.edu.iq

### 8. Course Objectives

#### **Course Objectives**

- •The learning outcomes of the main course should consistent with the course's mission, objectives and outcom
- What is expected from the course: to learn about student's future work options, which helps determine purposes served by each individual output. through
- The student's familiarity with the computer and its uses
- The ability to use practical research
- The ability to use the Internet in the scientific process

### 9. Teaching and Learning Strategies

#### **Strategy**

- 1. Teaching and learning methods: lecturing method
- 2. Guidance
- 3. Interventions
- 4. Use of computers and data displays

# 5. Course Structure

1. Course Name:

Foundations of Tafseer

2. Course Code:

the science of interpretation TAF 205

3. Semester / Year:

2024-2025 :k1

4. Description Preparation Date:

1/10/2024

5. Available Attendance Forms:

Basic

6. Number of Credit Hours (Total) / Number of Units (Total)

Two hours

7. Course administrator's name (mention all, if more than one name)

Name: fadel m kamboa Email: uoanbar.edu.iq

### 8. Course Objectives

### Course Objectives

- •• Introducing the student to the principles of interpretation
- The student's knowledge of the principles of interpretation
- The student's knowledge of the historical roots of the science of interpretation.....
- 9. Teaching and Learning Strategies

### Strategy

- 1- Introducing the student to the science of interpretation
- 2- The student's knowledge of this great art, on which the science of interpretation depends in particular
- 3- The student learns about the principles used in evaluating interpret narratives

### 10. Course Structure
